

2023 SALES & SERVICE NETWORK **LAS AMERICAS REGION**

High Speed Engines

Dear Customers,

MAN Engines offers you excellent support all over the world, available through a global network of service headquarters and an increasing number of local service centers to satisfy our customers' requests and provide on site servicing.

MAN's highly trained specialists are committed to making your MAN experience both efficient and pleasurable. Our service dealer personnel are all factory trained at our facility, returning frequently for product enhancement training and recertification.

Another key element of MAN's dedication to service is our abundant parts availability. Our centrally located parts store maintains virtually every spare part necessary to keep MAN product in top working condition. In emergencies, genuine MAN spare parts not available locally are dispatched by air freight for timely delivery.

MAN Engines and its dealers form one of the most dedicated and customer oriented "total support network" in the industry. We encourage you to contact a MAN dealer in your area to experience the MAN difference.

This directory lists MAN Certified High Speed Engines Dealers in the "Las Americas" region. For all countries not named or if you have difficulty arranging services please contact us.

Please note that all parts are sold through our authorized dealer network and not directly.

Your **MAN Engines** Team
